

Disorientis Privacy Policy

Last Updated: **June 7, 2018**

This Privacy Policy governs your use of the Disorientis software application (the “App”) for mobile devices, tablets, and other electronic devices that was created by Edward Hughes with the name Ed Devs. The App is a free-to-play arcade-type game with optional in-game purchases.

This Privacy Policy may be updated from time to time. You are advised to review this Privacy Policy regularly for any changes, as continued use is deemed approval of all changes.

What information does the App collect and how is it used?

When you access or use the App, the App may collect anonymous usage statistics and analytics such as how the application is used, scores, items collected, and achievements using the services listed in the **Partners** section. These information is used to improve the gameplay, user experience, and fine-tuning the game.

User Provided Information

The App may obtain the information you provide when you download the application and sign in with a registered Google Play account. Signing in with a registered account is optional. However, without signing in, you will not be able to use some of the features offered by the App.

Playing the game with a registered account may provide us:

1. a user name and other means of identification such as a photograph;
2. transaction-related information, such as when you make purchases or download or use applications from us; and
3. the information you provide us when you contact us for help.

We may use the information you provided us to contact you to provide you with important information, required notices, and marketing promotions.

Partners

As the App is primarily supported by ads and in-app purchases, information may be collected by our business partners so they can serve the ads you see. Refer to the corresponding links for more information and privacy policy details of each services.

The App utilizes the following services:

- [Unity Ads](#) - [Privacy Policy](#)
- [Unity Analytics](#) - [Privacy Policy](#)
- [Unity IAP](#) (In-App Purchase) - [Privacy Policy](#)
- [Google Play Games](#) - [Privacy Policy](#)

Does the App collect precise real time location information of the device?

No, the App does not collect precise information about the location of your mobile device, tablet, or other electronic devices.

Third party links

We may include links to third party products or services on the App. These third party sites have separate and independent privacy policies. We therefore have no responsibility or liability for the content and activities of these linked sites.

Your Consent

By downloading, accessing and/or playing the App, you agree to the terms in this Privacy Policy.
